ABOUT RAHMA

Rahma Worldwide addresses widespread poverty and vulnerability among refugees and vulnerable populations worldwide, focusing on delivering emergency and humanitarian assistance. Our main priorities include incorporating sustainable specific programs and partnering with local organizations to support global and local efforts to improve the living conditions of individuals, refugees, and the community at large.

We work in the areas of environmental, health, child well-being, education, and emergency relief. Recently, we became an affiliate of Mental Health America to address the overall mental health of the US populations, and increase efforts to ensure that mental health concerns are integrated into all our public health programs as well as human services activities.

MESSAGE FROM THE PRESIDENT AND CEO

Rahma Worldwide continues on a journey that began 7 years ago, with the belief that no human being should have to suffer, with a \$200 deposit that turned into millions. This expansion and growth would not have been possible without our generous donors from all walks of life. Our dedication to this cause is stronger than ever, despite all obstacles and challenges. Over the past few years we began serving a few dozen individuals and today Rahma Worldwide is proud to have touched the lives of millions worldwide.

Under the strategic direction of the Board of Directors and to meet the needs of those we serve, Rahma Worldwide implemented new programs in order to achieve specific goals. For instance, the organization launched a Covid-19 Relief Campaign; a program that spanned the globe, from the United States to Syria, and from Yemen to Turkey. This endeavor would not have been possible without the support of donors, specialized organizations, and without the dedication of our international team of volunteers.

The long-lasting psychological impact of Covid-19, compounded by poverty, hunger, displacement, natural disasters, and man-made civil unrest; all made the year 2020 one for the books. At Rahma Worldwide, we have adopted a flexible strategy that takes into account the needs of those being served in the United States and abroad, amidst a pandemic. The task at hand is enormous, but the flame of passion to make a difference will continue to burn, thus lighting our way to those in need, irrespective of borders and distance.

We are grateful to the men and women who stood by Rahma Worldwide to alleviate the suffering of their fellow human beings. We are grateful to our partners, affiliates, and individual donors. We shall honor this path and this journey together, as our commitment grows with every human being we help. All in the hopes of meeting the ever-changing emerging community needs.

Dr. Chadi Zaza
President and CEO

SUMMARY

2020 has hit people in need harder as major disasters constantly occurred while the innocent folks in crisis areas and war-torn countries were already burdened with drastically low living standards and intolerable environmental, physiological, and political conditions.

Rahma Worldwide is ever so thankful for the tremendous generosity exhibited by our kindhearted donors and the great selflessness displayed by our caring volunteers.

Without you, we would have never been able to keep up with this disastrous year, and the countless people in distress that your donations and hard work enabled us to reach who would have suffered much harsher times or even death.

During 2020, we expanded our operations and grew our affiliations and partnerships despite the pandemic

- One of the new countries that we were fortunate enough to conduct humanitarian work in is The Republic of Sudan.

“Rahma Worldwide is proud to now be affiliated with Mental Health America (MHA), making us currently an affiliate of MHA in the state of Michigan actively offering their mental health programs.”

- A goal that Rahma Worldwide set at the end of 2019 was to diversify and broaden the type of relief and help that we deliver in hopes of reaching a wider variety of lives in need. In 2020, we achieved this goal. Some of our more unique programs during this year were: sign language interpretation, COVID-19 response campaigns, mental health programs, and activism against gender-based violence.
- Partnerships and humanitarian work go hand-in-hand. Rahma Worldwide found new relationships and created affiliations with organizations and individuals that share our visions. Rahma Worldwide is proud to now be affiliated with Mental Health American (MHA) making us one of their national affiliates in the State of Michigan actively offering their mental health programs.

With your much-needed help, Rahma Worldwide was capable of providing all that was mentioned above and much more while maintaining our regular, main work of addressing widespread poverty and vulnerability among refugees and vulnerable populations worldwide.
